

Fire safety measures

Here are some key points to remember in the case of a fire

1. Use the nearest fire exit and exit the building.(familiarize yourself with the exits first)
2. Make the safety officer aware about the situation
3. Assemble by the fire assembly
4. Only try to take out a fire if you are safe.
5. In the cases of waking up to a fire in a room stay as low as possible to the ground as O₂ is dense and will be found at levels of 30-40 cms from the ground
6. In cases of finding yourself in a burning house cover yourself with wet towel and close the windows before leaving

Safeguarding policy

Here are a few points to remember while in AkiraChix campus

1. Never abuse (physical, verbal, mental, sexual) anyone on campus
2. Never neglect one in need
3. Always remember that we are all from different backgrounds (respect diversity)
4. Always report any forms of abuse or neglect
5. Always remember when found breaching the above rules you will be held accountable
